Aims and Scope

*Luminescence* provides a forum for the publication of reviews, original research papers, short communications and technical notes on fundamental and applied aspects of all forms of luminescence, including bioluminescence, chemiluminescence, electrochemiluminescence, sonoluminescence, triboluminescence, fluorescence, time-resolved fluorescence and phosphorescence. *Luminescence* publishes papers on instrumentation, mechanistic and synthetic studies, basic biology and biochemistry, assays and analytical methods.

---

Why Publish with *Luminescence*

- Easy and quick online submission
- Quality guaranteed with prominent editorial board
- Rigorous and fair peer review process
- Open access publishing available
- Over 30 years publishing history
- Indexed by 60 indexing services, including SCI, SCOPUS and PubMed
